PROBLEM	MARKET SEGMENT	OUTCOME
LIMITED BENCH SPACE, RELIABILITY AND PERFORMANCE.	OFFICE, QUICK SERVICE RESTAURANTS, CONVENIENCE & PETROL, SMALL COFFEE CHAINS.	FLEXIBLE WORK SPACE, SELF SERVE, CONNECTIVITY.

*Tiger Oceania has already placed forward orders for delivery of the new Legacy machine for the Oceania market, with delivery expected in early 2023.*

Legacy by Eversys was launched at Internorga in Hamburg on Saturday the 30th April 2022 as a 1-step machine with new innovations including up to 4 grinders and an integrated powder unit for multipurpose beverage service.

The new product release was backed up by a purpose-built digital launch via the dedicated [www.legacy.eversys.com](http://www.legacy.eversys.com) website and can be also found on [www.eversysoceania.com](http://www.eversysoceania.com) Home page.

The timing of this new technology is perfect for the Australasian marketplace where Tiger Oceania, the official distributor of Eversys Oceania have been working on superior support solutions when serving specialty coffee in specific environments, namely the out of home /office, coffee on the go and self-serve locations.

#### PROBLEM

Working closely with specialty roasters and key channel experts within the Convenience, Petrol, Office and Club venue segments, Tiger Oceania have been developing data driven maintenance and service support strategies to improve productivity in store, including the productivity of coffee, milk & water as well as a reduction of any downtime.

Tiger has also identified higher costs in consumables, staff shortages and the continuous cost of staff training as key issues within the coffee service industry for 2021/22.

Tiger understands many of the problems facing the coffee industry may be different for each client or territory so we have created a dedicated **tiger support** office to ensure the best possible outcomes to support the introduction of this technically superior equipment.

Whatever your problem, **tiger support** is a symbol of **WHY US** and is our commitment to taking ownership of those maintenance and service requirements as well as improving your bottom line.

#### SOLUTION

The recent release of the new Legacy by Eversys machine allows the local, national and regional networks of in house trained Tiger technicians to plan and ultimately deliver an in-cup experience that supports consumers wanting to experience quality, consistent coffee at the touch of a button.

In today's market a solution means a business needs to plan with trusted partners and invest in future technology to overcome the realities of today's limited workforce and adapt to the new location's coffee consumers are expecting to find a good coffee.

This is where Legacy by Eversys has been specifically designed to offer the production and choice of four different types of coffee in an office, QSR, Convenience/ Petrol stations and small coffee chains in a self-service format is so timely for what is happening in today's market.

OUTCOME

IT'S WHAT'S IN THE CUP THAT COUNTS.

TO CREATE THE BEST POSSIBLE COFFEE EXPERIENCE FOR OUR CUSTOMERS AND CONSUMERS ALIKE, ACROSS EVERY LOCATION AND SERVICE SCENARIO. ULTIMATELY, "IT'S WHAT'S IN THE CUP THAT COUNTS" AND TAKING PRIDE IN DELIVERING THIS CONSISTENTLY IN THE OCEANIA REGION IS WHAT MAKES OUR LOCAL, NATIONAL AND REGIONAL SUPPORT SO IMPORTANT TO OUR MUTUAL SUCCESS.

BENEFITS

ARCHITECTURE
EFICIENCY
ELEGANCE
MODULARITY
COMPACTNESS
